Index

Act 590 (Arkansas), 86–88, 89, 127n8
Antiscience, 90
Aristarchus, 96
Aristotle, 22, 45, 72, 73, 79–80
Assayer, The (Galileo), 77
Assumptions, 24, 37
Astronomy, 73, 74, 75, 127n11
Authority, 80–81, 88

Bacon, Francis, xvii, 74
Behavioral economics, 40
Behavioral genetics, 90
Bellarmine, Robert Cardinal, 76–77, 78
Bell Curve, The (Herrnstein and Murray), 59–61
Borjas, George, 23
Broken windows theory, 116–120, 127n4
"Broken Windows" (Wilson and Kelling), 116
Bronowski, Jacob, 50–51
Bruno, Giordano, 72
Bryan, William Jennings, 86

Caccini, Thomas, 76
Catholic church, the, 55, 72, 75–78, 126n1, 126n2, 126n3. *See also* Religious ideology
Causal factors
 crime rates and, 4–6, 119–120
 hyperinflation and, 7–8
 ideological bias and, 52
 naive correlation, 36–37
 regularity and, 31–32
 science of human behavior and, xiv, 10–11, 15–16, 32, 108–109, 113
 simplification and, 30
 social policy and, 8, 10
 social problems and, 4–5, 8, 15–16
Christianity, xvi, 52–53, 99. *See also* Religious ideology
Closed systems, 27, 31–32. *See also* Open systems

Cobb County School Board (Georgia), 88
Cold fusion studies, 19–20, 60
Complexity, 27, 29–31, 40
Conservatism, 61
Controlled experiments. *See also* Experimental attitude; Methodology; Scientific attitude;
 intuition and, 81
 judgment under uncertainty and, 40
 methodology and, 80
 reason and, 40
 resistance to knowledge and, 82, 112
 science of human behavior and, 28, 36–37, 81
 scientific inquiry and, 36–37
 social science and, 81
 testability and, 84
 theoretical flexibility and, 36–37
Cook, Phillip J., 68, 125n14
Cook survey, 125n14
Copernican theory, 73, 74, 75, 77, 127n11
Copernicus, Nicolaus, xvi, 53, 96
Creation science, 86–87, 88–89, 110–111
Crime rates, 5–6, 63–67, 117–120
Criminology, 3, 5–6, 40, 64

Dark Ages, the, xiii–xv, xvi–xvii, 1, 71–73
Darrow, Clarence, 86
Darwinian biology, 45, 85–88
Death penalty, 61, 124n6, 124n7
Dialogue Concerning the Two Chief Systems of the World (Galileo), 77–78
Dickens, Charles, 1
Double-blind clinical trials, 25
Dover Area School District (Pennsylvania), 88
Durkheim, Emile, 15

Edict of 1616, 76, 77, 78
Egocentric prejudice
 defined, 50–51
 free will and, 51–52
 resistance to knowledge and, 45–52, 83–84, 99–100, 110–111
 science of human behavior and, 99–101
 scientific attitude and, 46
 scientific method and, 49–50, 94–96
Einstein, Albert, 53
Empirical evidence, science of human behavior and, 16–17, 25, 33–34, 48–49, 63–68, 124n1
Empiricism. *See also* Scientific attitude
 broken windows theory, 116–119, 127n4
 criminology and, 3, 5–6, 40, 64
 death penalty and, 61
 double blind clinical trials and, 25

experimental methods and, 81
falsification and, 82, 94–95
Galileo and, 126n4
God and, 54
ideological bias and, 24, 25, 48–52, 64
ideological resistance and, 66–67
intelligence and, 59–61
intuition and, 48–52
mathematical insight and, 74
methodology and, 18–20, 24, 60–61, 92–97
natural science and, 79
negative evidence and, 21–22, 94–95, 123n2
objectivity and, 33, 113
political correctness and, 57–61, 67–68
political ideology and, 56–57
rational thought and, 53
reason and, 44–48, 54–55
religious ideology and, 54
resistance to knowledge and, 43–47, 125n8
scientific attitude and, 20, 48, 80, 95, 112
sensory evidence, 74, 94
social policy and, 63, 64, 66, 125n8
social problems and, 111–112
testability and, 21–22, 94
theoretical flexibility and, 21–24
Enlightenment, the, xvii, 12
Environmental Protection Agency, 90–91
Ethnic cleansing, 9–10
Evil, 1–2, 54, 106–107
Evolution. *See also* Darwinian biology
