### **PART I: INTRODUCTION 1**

- 1 Financial Assets and Financial Markets 3**
  - Learning Objectives 3
  - Financial Assets 4
    - Debt versus Equity Claims 5
    - The Value of a Financial Asset 5
    - Financial Assets versus Tangible Assets 8
    - The Role of Financial Assets 8
    - Properties of Financial Assets 9
  - Financial Markets 13
    - The Role of Financial Markets 13
    - Classification of Financial Markets 14
    - Globalization of Financial Markets 16
    - Classification of Global Financial Markets 17
  - Derivative Markets 18
  - Financial Markets and the Real Economy 19
  - Asset Classes 21
  - Key Points 23
  - Questions 25
  
- 2 Overview of Risks and Risk Management 29**
  - Learning Objectives 29
  - Defining Risk 30
    - Risk versus Uncertainty 31
    - Systematic Risk versus Idiosyncratic Risk 32

Financial Risk Management	33
Identifying Financial Risks	33
Quantifying Risks	33
Evaluating How to Deal with Each Identified Risk	34
Investment Risk	37
Credit Risk	37
Price Risk	40
Reinvestment Risk	42
Inflation Risk	43
Liquidity Risk	43
Foreign Exchange Rate Risk	44
Longevity Risk	44
Funding Risk	46
Leverage Risk	46
Funding Liquidity Risk	48
Timing Risk	48
Fixed-Floating Financing Risk	50
Systemic Financial Risk	50
Financial Innovation	51
Key Points	52
Questions	55

## **PART II: THE PLAYERS 61**

<b>3</b>	<b>Overview of Market Participants</b>	<b>63</b>
	Learning Objectives	63
	Investors and Issuers	64
	Households	64
	Nonfinancial Corporations	65
	Governments	66
	Depository Institutions	66
	Institutional Investors	66
	Securities Brokers and Dealers	71
	Nonprofit Organizations	71
	Foreign Investors	72
	Financial Institutions	75
	Financial Intermediaries	76
	Role of Governments in Financial Markets	78
	Regulation of Financial Markets	80
	Acting as Financial Intermediaries	83

	Influencing Financial Markets through the Actions of the Central Bank	84
	Providing Financial Assistance and Support for Bailouts	86
	Credit Rating Agencies	91
	The Role of CRAs in the Financial System	93
	Use of Ratings by Regulators	93
	Nonregulatory Use of Ratings	94
	Concerns Regarding CRAs	95
	Other International Participants	98
	Bank for International Settlements	98
	Financial Stability Board	99
	Key Points	100
	Questions	103
<b>4</b>	<b>Depository Institutions</b>	<b>107</b>
	Learning Objectives	107
	The Asset/Liability Problem of Depository Institutions	108
	Regulators of Banks	110
	The Federal Reserve	111
	Office of the Comptroller of the Currency	112
	Federal Deposit Insurance Corporation	113
	Bank Regulation	115
	Safety and Soundness Regulation	115
	Deposit Insurance	120
	Bank Activities	123
	Bank Funding	124
	Deposits	125
	Reserve Requirements and Borrowing in the Federal Funds Market	125
	Borrowing at the Fed Discount Window	126
	Other Nondeposit Borrowing	126
	Nonbank Depository Institutions: Thrifts	127
	Savings Institutions	127
	Credit Unions	129
	Shadow Banking	130
	Key Points	133
	Questions	137
<b>5</b>	<b>Insurance Companies and Defined Benefit Pension Plans</b>	<b>141</b>
	Learning Objectives	141
	Insurance Companies	142
	Stock versus Mutual Insurance Companies	143
	Insurance Companies versus Types of Products	145

	Fundamentals of the Insurance Industry	145
	Regulation of Insurance Companies	146
	Types of Life Insurance	149
	Other Investment-Oriented Policies	151
	Taxation of Life Insurance	153
	General Account and Separate Account Products	153
	Insurance Company Investment Strategies	154
	Failures of Insurance Companies	155
	Catastrophic Risk and Its Management	156
	Insurance-Based Investment Banking	158
	Defined Benefit Pension Funds	159
	Defined Benefit Pension Plans and Variants	161
	Regulation	162
	Private-Sector Defined Benefit Pension Plan Problems	163
	The Pension Benefit Guaranty Corporation	167
	Public-Sector Defined Benefit Pension Plan Problems	168
	Key Points	169
	Questions	171
<b>6</b>	<b>Managers of Collective Investment Vehicles</b>	<b>175</b>
	Learning Objectives	175
	Investment Company Shares	176
	Open-End and Closed-End Funds	177
	Fund Sales Charges and Annual Operating Expenses	179
	Economic Motivation for Funds	181
	Types of Funds by Investment Objective	182
	The Concept of a Family of Funds	183
	Exchange-Traded Funds	184
	Types of ETFs and ETF Sponsors	186
	The Process of Creating and Redeeming ETF Shares	186
	Tracking the Performance of ETFs	187
	Uses of ETFs	188
	Hedge Funds	188
	Attributes of Hedge Funds	189
	Types of Hedge Funds	191
	Concerns with Hedge Funds in Financial Markets	193
	Real Estate Investment Trusts	194
	Types of REITs	195

	Venture Capital Funds	196
	Venture Capital Firms	197
	Investing in a Venture Capital Fund	198
	Stages of a Venture Capital Fund	198
	Key Points	199
	Questions	201
<b>7</b>	<b>Investment Banking Firms</b>	<b>205</b>
	Learning Objectives	205
	Public Offering (Underwriting) of Securities	207
	Trading of Securities	210
	Riskless Arbitrage	210
	Risk Arbitrage	212
	Proprietary Trading	214
	Execution of Trades for Clients	217
	Research and Trading	217
	Private Placement of Securities	217
	Securitization of Assets	218
	Mergers and Acquisitions	218
	Merchant Banking	220
	Financial Restructuring Advising	221
	Securities Finance	221
	Prime Brokerage	222
	Trading and Creation of Derivative Instruments	222
	Asset Management	223
	Key Points	223
	Questions	226
	<b>PART III: BASICS OF CASH AND DERIVATIVES MARKETS</b>	<b>229</b>
<b>8</b>	<b>Primary and Secondary Markets</b>	<b>231</b>
	Learning Objectives	231
	Primary Market	232
	Federal Securities Law and Regulation of the Issuance of Securities	232
	Variations in the Underwriting of Securities	239
	World Capital Markets Integration and Fund-Raising Implications	243
	Motivation for Raising Funds outside the Domestic Market	244
	Secondary Markets	245
	Function of Secondary Markets	246
	Architectural Structure of Secondary Markets	246
	Trading Locations	248
	Role of Brokers and Dealers in Real Markets	257

	Market Efficiency	259
	Key Points	262
	Questions	265
<b>9</b>	<b>Introduction to Linear Payoff Derivatives: Futures, Forwards, and Swaps</b>	<b>271</b>
	Learning Objectives	271
	Classification of Derivatives	272
	Linear versus Nonlinear Payoff Derivatives	272
	Types of Linear Payoff Derivative Contracts	274
	Futures Contracts	274
	Forward Contracts	277
	Swaps	278
	Applications	280
	Pricing of Futures and Forward Contracts	283
	Numerical Illustration	283
	Theoretical Futures Price Based on Arbitrage Model	286
	Price Convergence on the Delivery Date	289
	A Closer Look at the Theoretical Futures Price	289
	General Principles of Hedging with Futures	291
	Risks Associated with Hedging	291
	Short Hedge and Long Hedge	292
	Hedging Illustrations	292
	The Role of Linear Payoff Derivatives in Financial Markets	303
	Effect of Futures and Swaps on the Volatility of the Underlying Asset	304
	Is Increased Asset Price Volatility Bad?	304
	Key Points	305
	Questions	307
<b>10</b>	<b>Introduction to Nonlinear Payoff Derivatives: Options, Credit Default Swaps, Caps, and Floors</b>	<b>313</b>
	Learning Objectives	313
	Types of Nonlinear Payoff Derivatives	314
	Options	314
	Exotic Options	326
	Caps and Floors	327
	Credit Default Swaps	329
	Pricing of Options	330
	Basic Components of the Option Price	330
	Put-Call Parity Relationship	331
	Factors That Influence the Option Price	333
	Option Pricing Models	335

Economic Role of Nonlinear Payoff Derivatives	341
Key Points	344
Questions	346
<b>11 Securitization and Its Role in Financial Markets</b>	<b>351</b>
Learning Objectives	351
Securitization and the Creation of a Securitized Product	352
The Parties to a Securitization	353
Securitized Products Created and Transaction Structure	354
Benefits of Securitization to Financial Markets	358
Concerns with Securitization	360
Need for the Development of an Accommodating Legal Structure	362
The Role of the SPV	363
Legal Challenges	365
Securitization as a Corporate Risk Management Tool	366
The Subprime Mortgage Crisis and Securitization	367
The Dodd-Frank Act and Securitization	369
Key Points	371
Questions	373
<b>PART IV: RISK AND RETURN THEORIES</b>	<b>375</b>
<b>12 Return Distributions and Risk Measures</b>	<b>377</b>
Learning Objectives	377
Measuring the Rate of Return	378
Return Distributions	379
Describing a Probability Distribution	379
Continuous Probability Distributions Used to Describe Returns	382
Family of Stable Distributions	386
Some Stylized Facts about Stock Returns	388
Joint Probability Distributions	389
Covariance and Correlations	390
Copula Functions and Tail Dependence	391
Portfolio Risk Measures	392
Coherent Measures of Risk	393
Alternative Portfolio Risk Measures	393
Safety-First Risk Measures	394
Reward-Risk Ratios	397
The Reward Measure	398
The Risk Measure	400

	Key Points	400
	Questions	404
<b>13</b>	<b>Portfolio Selection Theory</b>	<b>411</b>
	Learning Objectives	411
	The Notion of Portfolio Diversification	412
	Markowitz Portfolio Theory	414
	Expected Portfolio Return	414
	Measuring Portfolio Risk	415
	The Role of the Correlation on Portfolio Risk and the Diversification Effect	416
	Constructing Portfolios	417
	Selecting the Optimal Portfolio	421
	Criticisms of Portfolio Theory	423
	Behavioral Finance Theory and Investor Decision Making	425
	Markowitz Portfolio Theory in Practice	428
	Key Points	430
	Questions	431
<b>14</b>	<b>Asset Pricing Theories</b>	<b>435</b>
	Learning Objectives	435
	Economic Assumptions	436
	Assumptions about Investor Behavior	436
	Assumptions about Capital Markets	437
	Capital Market Theory	437
	Deriving the Formula for the CML	439
	Interpreting the CML Equation	441
	The Capital Asset Pricing Model	442
	Systematic and Unsystematic Risk	442
	Quantifying Systematic Risk	443
	Estimating Beta	446
	The Security Market Line	448
	The SML, CML, and Market Model	449
	Tests of the CAPM	450
	The Multifactor CAPM	453
	The Arbitrage Pricing Theory Model	454
	Assumptions of the APT Model	454
	Derivation of the APT Model	455
	Comparison of the APT Model and CAPM	457
	Advantages of the APT Model	458

Factor Models in Practice	458
Statistical Factor Models	458
Macroeconomic Factor Models	459
Fundamental Factor Models	460
Some Principles to Take Away	460
Key Points	461
Questions	463
<b>PART V: INTEREST RATE DETERMINATION AND DEBT PRICING</b>	<b>465</b>
<b>15 The Theory and Structure of Interest Rates</b>	<b>467</b>
Learning Objectives	467
The Theory of Interest Rates	468
Description of Preferences between Current and Future Consumption	468
Opportunity in the Loan Market	470
Economic Forces Affecting the Market Rate	472
Carryover through Investment	473
Consumer Choices	473
Market Equilibrium	478
Efficiency Properties of Markets	482
Real and Nominal Interest Rates: Fisher's Law	483
The Structure of Interest Rates	484
The Base Interest Rate	484
The Risk Premium	485
Term to Maturity	487
Inclusion of Options	488
Taxability of Interest	489
Alternative Benchmark Interest Rates	491
Key Points	494
Questions	495
<b>16 Valuation of Debt Contracts and Their Price Volatility Characteristics</b>	<b>499</b>
Learning Objectives	499
Features of Debt Contracts	500
Basic Valuation Principles	501
Return from a Bond: Yield to Maturity Measure	502
Price of an Option-Free Bond	504
Reasons for Changes in Bond Price	504
What Determines the Premium-Par Yield	505
Reinvestment of Cash Flow and Yield	506

	Bond Price Volatility	507
	Review of Price/Yield Relationship	507
	Price Volatility Properties	507
	Characteristics of a Bond That Affect Price Volatility	510
	Measure of Price Volatility: Duration	510
	Convexity	519
	Key Points	521
	Questions	523
<b>17</b>	<b>The Term Structure of Interest Rates</b>	<b>527</b>
	Learning Objectives	527
	The Yield Curve and the Term Structure	528
	Using the Yield Curve to Price a Bond	529
	Constructing the Theoretical Spot Rate Curve	530
	Using Spot Rates to Value a Bond	534
	Forward Rates	534
	Relationship between Spot Rates and Short-Term Forward Rates	539
	Forward Rate as a Hedgeable Rate	540
	Historical Shapes Observed for the Treasury Yield Curve	540
	Determinants of the Shape of the Term Structure	542
	The Pure Expectations Theory	543
	The Liquidity Theory	546
	The Preferred Habitat Theory	546
	Market Segmentation Theory	547
	The Main Influences on the Shape of the Yield Curve	548
	Key Points	550
	Questions	552
	<b>PART VI: EQUITY MARKETS</b>	<b>557</b>
<b>18</b>	<b>The Structure of the Common Stock Market</b>	<b>559</b>
	Learning Objectives	559
	Regulators of Equities Markets	560
	Securities and Exchange Commission	560
	Financial Industry Regulatory Authority	562
	State Regulation	562
	Equity Trading Venues	563
	Exchange Market for Listed Stocks	564
	Exchange Market for Unlisted Stocks	566
	Alternative Trading Systems	568

Execution of an Order	571
Execution of an Order Placed with a Broker	571
Market Trading Regulation	572
Regulatory Background	573
Market Regulation	574
Other Types of Common Stock Trading	579
Offshore Trading	579
Rule 144a Securities	579
American Depositary Receipts	580
Trading of Stocks Outside the Country Where They Are Domiciled	580
Global Depositary Receipts	581
Euro Equity	582
Key Points	583
Questions	587
<b>19 Common Stock Strategies and Trading Arrangements</b>	<b>589</b>
Learning Objectives	589
Stock Market Indexes	590
Major International Stock Market Indexes	591
Pricing Efficiency of the Stock Market	592
Forms of Efficiency	593
Micro versus Macro Stock Market Efficiency	594
Implications for Investing in Common Stock	594
Global Investing Strategies	596
Trading Mechanics	598
Types of Orders	598
Margin Transactions	600
Trading (Transaction) Costs	602
Explicit Costs	602
Implicit Costs	604
Classification of Trading Costs	605
Research on Trading Costs	605
Trading Arrangements for Institutional Investors	606
Block Trades	606
Program Trades	607
High-Frequency Trading	610
Key Points	614
Questions	618

**PART VII: DEBT MARKETS 623**

- 20 The Money Market for Private Debt Instruments 625**
  - Learning Objectives 625
  - Interbank Funding Market 627
    - Federal Funds Market 627
    - Future of the Interbank Funding Market 630
  - Repo Market 631
    - Credit Risks 632
    - Participants in the Market 634
    - Determinants of the Repo Rate 635
  - Commercial Paper Market 636
    - Nonfinancial and Financial CP 637
    - Asset-Backed CP 639
    - Defaults in the CP Market and the Recent Financial Crisis 640
    - Yields on CP 641
    - Non-U.S. CP Markets 642
  - Large-Denomination Negotiable Certificates of Deposit 642
    - CD Issuers 643
    - CD Yields 643
  - Banker's Acceptances 644
    - Illustration of the Creation of a BA 645
    - Accepting Banks 646
    - Eligible BAs 646
    - Credit Risk 647
  - Funding Agreements 647
  - Money Market Funds 648
    - Types of MMFs 649
    - SEC MMF Rules Adopted and Proposed as a Result of the Financial Crisis 651
  - Key Points 653
  - Questions 656
  
- 21 Treasury and Agency Securities Markets 659**
  - Learning Objectives 659
  - U.S. Department of the Treasury and Debt Management 660
    - Office of Debt Management 660
    - Treasury Debt Management and the Financial Crisis 666
  - The Market for U.S. Treasury Securities 667
    - Types of Treasury Securities 668
    - The Primary Market 670

	The Secondary Market	675
	Regulation of the Secondary Market	676
	Stripped Treasury Securities	677
	Coupon Stripping and the Theoretical Value of Treasury Securities	679
	The Market for Federal Agency Securities	681
	Tennessee Valley Authority	682
	Fannie Mae	683
	Freddie Mac	683
	Federal Agricultural Mortgage Corporation	684
	Federal Home Loan Bank System	684
	Federal Farm Credit Bank System	684
	Key Points	685
	Questions	687
<b>22</b>	<b>Municipal Securities Markets</b>	<b>691</b>
	Learning Objectives	691
	Tax-Exempt versus Taxable Municipal Securities Market	693
	Yields in the Municipal Securities Markets	694
	Types and Features of Municipal Securities	695
	Tax-Backed Debt	695
	Revenue Bonds	696
	Hybrid and Special Bond Structures	696
	Municipal Notes	699
	Redemption Features	700
	Credit Risk	700
	Default and Recovery Rates	700
	Factors Considered by Credit Rating Agencies in Assigning Ratings	702
	Municipal Bankruptcy	702
	Tax Risks Associated with Investing in Municipal Securities	704
	Regulation of the Municipal Securities Market	704
	Primary Market for Municipal Securities	706
	Initial Disclosure	706
	Competitive versus Negotiated Offering	707
	Secondary Market for Municipal Securities	708
	Key Points	709
	Questions	712
<b>23</b>	<b>Corporate Senior Instruments Markets</b>	<b>715</b>
