Contents

Foreword by Mung Chiang xvii
Preface xix

1 Introduction 1
The Risks Associated with a New Venture 1
The Difficulties of Obtaining Probabilities in Risk Assessment 2
What Is the Most Important Uncertainty? 3
A Closer Look at the Risks Faced by a New Venture: Market, Technical, Operational, and Financial 4
Market Risk 5
Technical Risk 5
Operational Risk 6
Financial Risk 6
Why New Ventures Fail 6
Stages of a Venture 9
Milestones 9
Stages of Business Development and Financing 10
Key Points Covered in This Chapter 12
Further Readings 13

2 The Business Model, Business Plan, and Exit Planning 15
The Business Model 15
Three Key Components of a Business Model 17
The Market: Customers and Customer Segments 20
The Value Proposition of the Products or Services Being Offered 21
Profitability: Revenue Sources and Cost Structure 21
Why the Business Model Has to Be Revised 22
Failure to Revise a Business Model: The Case of Brick-and-Mortar Video Rentals 23
Reasons for Rethinking a Business Model 24
The Business Plan  
Nature of the Business  
Products and Services to Be Offered  
Market Segment or Customers Targeted  
Competitive Nature of the Industry  
Marketing Plan  
Suppliers and Service Providers  
Management Team  
Financial Plan  
Risks  
Business Model versus Business Plan

Exit Planning  
Components of Exit Planning  
Transition Planning  
Exit Strategy Planning  
Succession Planning  
Issues Associated with Exit Strategies  
Entrepreneurial Exit  
Should Entrepreneurs Have an Exit Strategy Plan?

Key Points Covered in This Chapter

Further Readings

3  Selecting a Form of Business Organization  
Forms of Business Organization  
Sole Proprietorship  
General Partnership  
Limited Partnership  
Corporation  
State Filing Requirements  
C Corporations and S Corporations  
Limited Liability Company

6 Sources of Financing 97

Preliquidation Stages of Financing 97

Due Diligence Process 99

Sources of Seed Stage Financing 100

- Credit Card Financing 100
- Vendor Financing 101
- Small Business Administration Loans 101
  - Basic 7(a) Loan Program 102
  - Certified Development Company 504 Loan Program 103
  - Microloan Program 104
- Angel Investors and Angel Groups 104
  - Angel Groups 104
  - Angel Investors and Performance of Startups 106
    - Returns Earned by Angel Investors 107
- Super Angels 108
- Equity Crowdfunding Platforms 108
- Seed Accelerators 109
- Incubators 110

Pre-IPO Expansion Financing 111

- Venture Capitalists 111
  - Venture Capital outside the United States 114
- Corporate Venture Capitalists 114
- Online Venture Capital Funds 116
- Institutional Investors: Mutual Funds and Hedge Funds 117

Initial Public Offering 118

- Advantages of Going Public 119
- Disadvantages of Going Public 119
- Issuance Method 120
  - Traditional Underwriting Process 120
  - Auction Process 121
  - Traditional IPO Offering versus an Auction 123

Key Points Covered in This Chapter 123

Further Readings 126
9 Balance Sheet 169
Assets 169
   Current Assets 172
   Noncurrent Assets 173
      Physical Assets 173
      Intangible Assets 175
      Goodwill 179
   Other Noncurrent Assets 180
Liabilities 180
   Current Liabilities 180
   Long-Term Liabilities 182
      Contingent Liabilities 183
      Commitments 184
Stockholders’ Equity 185
   Preferred Stock versus Common Stock 185
   Classification of Common Stock 186
   Par Value of Common Stock 186
   Book Value of Stockholders’ Equity 187
Limitations of the Balance Sheet 188
Key Points Covered in This Chapter 188
Further Readings 191

10 Income Statement 193
   Structure and Components of the Income Statement 193
Sales/Revenue 194
   Revenue Recognition for Long-Term Contracts 197
Contents

Operating Costs 198
  Cost of Goods Sold 200
    Inventory Valuation/Costing 201
Income Taxes 203
Net Income 204
  Net Income Attributable to Noncontrolling Interests 204
Net Income Available to Common Stockholders 206
Comprehensive Income and Other Comprehensive Income 206
Earnings Per Share 209
  Diluted EPS 209
Key Points Covered in This Chapter 210
Further Readings 213

11 Statement of Cash Flows and Statement of Stockholders' Equity 215
Statement of Cash Flows 215
  Cash Flow from Operating Activities 217
    Noncash Expenditures and Income 217
    Changes in Current Assets and Current Liabilities 217
  Cash Flow from Investing Activities 219
  Cash Flow from Financing Activities 219
  Net Change in Cash 220
Statement of Stockholders' Equity 220
Key Points Covered in This Chapter 220
Further Readings 222

12 Financial Ratios 223
Key Financial Ratios 223
  Profitability Margin Ratios 225
  Return on Investment Ratios 228
  Asset Efficiency Ratios 229
  Financial Leverage Ratios 230
    Percentage of Financial Leverage Ratios 231
    Coverage Ratios 232
  Liquidity Ratios 233
Putting It All Together: Determinants of Earnings per Share 233
  A Closer Look at Return on Common Stockholders' Equity 234
    Analysis of Return on Assets 235
Common Size Analysis 237
Key Points Covered in This Chapter 238
Further Readings 239
Contents

13 Financial Planning 241
  Why Financial Planning Is Important 242
  Budgets and Forecasted Financial Statements 242
    Sales Budget 243
    Types of Sales Forecasting 244
    Cash Budget 245
    Illustration 246
  Forecasting the Balance Sheet and Income Statement 250
    Illustration 251
  Acquisitions As a Strategic Growth Plan 257
    Due Diligence Screening Process 262
    Negotiating the Terms of an Acquisition 263
    Acquisition As an Exit or Harvesting Strategy 263
  Key Points Covered in This Chapter 264
  Further Readings 267

14 Profit Planning 269
  The Nature of Production Costs 269
    Production Cost Components 269
    Production Cost-Volume Relationship 272
    Nonaccounting Other Costs and Profit Planning 273
    Estimating the Cost of a New Product 273
  Break-Even Analysis 274
    Dollar Break-Even Point 275
  Cost-Volume-Profit Analysis 276
    Risk and Profit Analysis 277
    Comparing Different Production Processes 277
  Limitations of Break-Even and Cost-Volume-Profit Analysis 279
    Difficulties of Cost Classification 279
    Difficulties in Estimating the Cost-Volume Relationship 280
    The Linearity Assumption of Cost and Revenue 280
    Difficulties in Multiproduct Applications 281
    Short-Term Nature of the Model 282
  Cash Flow versus Profit 282
  Key Points Covered in This Chapter 283
  Further Readings 286

15 Financial Options 287
  Basic Features of Financial Options 287
  Risk and Return Characteristics of Options 288
    Buying Call Options 288
    Buying Put Options 289
Contents

Basic Components of the Option Price  290
   Intrinsic Value  291
   Time Premium  292

Factors That Influence the Price of a Financial Option  292
   Current Price of the Underlying Financial Asset  292
   Exercise (Strike) Price  293
   Time to Expiration of the Option  293
   Expected Price Volatility of the Underlying Financial Asset over the Life of the Option  293
   Short-Term Risk-Free Interest Rate over the Option's Life  293
   Anticipated Cash Payments on the Underlying Financial Asset over the Option's Life  294

Determining the Value of a Financial Option: Pricing Models  294
   Black-Scholes Option Pricing Model  295

Beyond the Simple Financial Option  297
   Compound Option  297
   Rainbow Option  298
   Barrier Option  298

Key Points Covered in This Chapter  299

Further Readings  300

16 Methods for Valuing Private Companies  301
   Valuation of Private versus Public Companies  302
   The Standard of Value  302
      Other Standards of Value  304
   Valuation Methods  304
   Asset-Based Method  305
   Income Method  306
      Free Cash Flow  306
      Time Value of Money  309
         Present Value of a Future Value  309
         Present Value of a Series of Future Values  310
         Present Value of an Amount in Perpetuity  311
         Midyear Convention in Computing Present Value  312
      Cost of Capital  313
         Estimating the Cost of Debt  315
         Estimating the Cost of Common Stock  317

      Determining Any Excess Cash on the Balance Sheet  319
      Estimating the Preliquidity Value of Debt  320
   Limitations of the Discounted Cash Flow Method  320
Contents

Market Method 320
  Guideline Public Company Analysis 321
  Financial Ratios Used for Multiples 321
  Adjusting for Growth 322
  Financial Accounting Adjustments 324
  Guideline Transactions Analysis 324

Option-Based Method 325
  Valuation of Pre-Revenue and Positive Earnings Startup Firms 325
    Venture Capital Method 326
    Scorecard Method 328
    Berkus Method 330
    Risk Factor Summation Method 330

Discount for Lack of Liquidity 331
  Key Points Covered in This Chapter 333
  Further Readings 338

17 Valuing Capital Projects 339
  Classifying Investment Projects 339
    Classification by Economic Life 340
    Classification by the Nature of Risk 340
    Classification by the Capital Project’s Relationship to Other Projects 340
  Estimating Cash Flows of Capital Projects 341
    Cash Flow Patterns 342
  Capital Project Valuation Methods 342
    Net Present Value Method 343
    Internal Rate of Return Method 345
      Why the NPV and IRR Methods May Yield Conflicting Rankings 345
      Capital Rationing and the IRR Method 348
  Other Considerations in Capital Project Selection 349
    Payback Period 349
    Incorporating Risk 350
      Adjusting the WACC 350
      Adjusting the Incremental Cash Flows 351
  Key Points Covered in This Chapter 351
  Further Readings 355

18 Real Options Analysis 357
  Technology and Real Options 358
  Motivation for the Real Options Approach 361
    Interpretation of Buying Call and Put Options in the Context of Capital Budgeting 363
    Real Options Analysis and the R&D Process for Pharmaceutical and Biotechnology Companies 364
Classification of Real Options 366
  Growth Options 366
  Abandonment (Shrink or Disinvest) Options 367
  Deferral Options 367
Practitioner Use of Real Options Analysis 367
Real Options Valuation Models 368
  Enterprise Valuation Model for Early-Stage High-Tech Companies: The Moon-Schwartz Model 369
  Enterprise Valuation Model for R&D for Pharmaceutical and Biotechnology Companies 370
  Real Options Valuation for High-Tech Companies with Patents Pending 371
  Commercial Software Models for Valuing Real Options 372
Key Points Covered in This Chapter 372
Further Readings 373
